

Crystalline HeartSpace

PersonalSpace ◉ Authentic Beauty ◉ RadiantStrength

The «Crystalline HeartSpace» can be compared in a distant sense to one's personal power animal..

«We bring you in touch with your deepest, authentic beauty and RadiantStrength.»

Is a quote out of the book «Hermine empfängt globale Botschaften» («Hermine receives global messages») and describes it very coherently.

The "Crystalline HeartSpace" serves us as a bridge, a transformation bridge so to speak, to grow from the current reality into the new paradigm.

After all participants have learned about their personal HeartSpace, we then dive into the depth of the multi-layered messages together, learn what relevance it has for us, what it can do for us and how it can work in interplay with our environment.

Maybe we will even fade the day out with FreeSoulSound, which is dedicated to our Crystalline HeartSpaces.

We look forward to you!
