

GREAT SHIFT AHEAD AND OFFERED SUPPORT OF NAVIGATING THROUGH IT

Dear wonderful and appreciated Beings

Humanity has driven itself to a point i don't even find a word for!
A numbness, that i personally can barely look at and handle anymore.
Being someone who has always been much ahead of time, at this very moment, it is the most challenging period for me to endure!

Personally, i think, that the ,go with the flow and it will happen anyway'- cast of mind will not succeed. Those attitudes will now fail, because it simply hinders the Ones who ARE willing to move on and change their habits in order to CoCreate the New - Paradise, as i keep calling it.

Even though, Planet Gaia lives very well without humanity, Great Spirit offers us the opportunity to take over the steering wheel to living in Love, Respect & Gratitude to all there is. BUT - the time is now! In my understanding, we have a few weeks and months until the great shift is taking place.

Some people, however, are deeply feeling, that something needs to transform. In their conscious or subconscious mind they know: ' - i - have to change something!'

My goodness!

Over the last months, i have been shown so incredibly much!
Over the last months, i have been called to Create and CoCreate for the Planets Gaia, Sun, Venus, Mars and way more, on a metaphysical, sacred, highly spiritual level - it touches me deeply each time!

Lots and lots of information and knowledge i am certainly sharing to the Ones who seek. Yet, the numbness showing as ,read and klick away' i am no longer willing to serve.

As mentioned before, i have created the **CallOfRemembranceCircle**.
An intimate place for us to move on together in truly proceeding forward and manifest the changes we are required to do!

Do you belong to the Ones that want to make the necessary transformations?

I am sooo happy about our community to grow and travel on within each others support within a Space filled with Love 📍

For the first certain amount of people, i offer to join in for free or a self chosen donation. A donation can, besides being it in a still classical way of money, also be support through various CoCreation we are more than happy to receive support with.

Here, in this community, i will continue to share some, yet definitely no more in depth information - that is the worth i am giving to our transformational time.

For whatever way you choose to take - may you be embraced with much Love 📍🙏

From my 📍
with lots of Love, Light & Gratitude
Your
White Feather ☺
